

ENERGY & FACILITY SERVICES

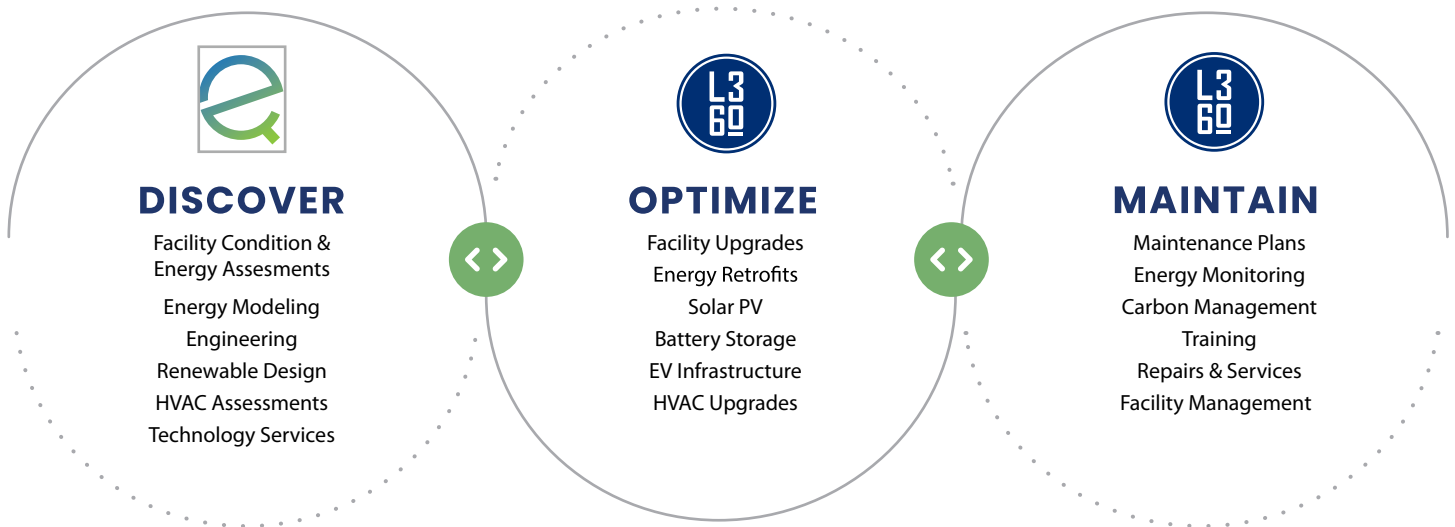

Decarbonize and transition to **Net Zero Energy** by reducing energy consumption and improving facility efficiency.

Our unique approach to performance optimization blends industry-leading expertise in energy efficiency, facility management, project implementation and ongoing maintenance support. This results in more cost-effective buildings that last longer, consume less and perform better.

- ✓ REDUCE ENERGY USAGE
- ✓ LOWER EMISSIONS
- ✓ LOWER ENERGY COSTS
- ⬆ OPTIMIZE FACILITIES
- ⬆ IMPROVE COMFORT
- ⬆ INCREASE ASSET VALUE

LMMW is an energy and facility services company operating under the L360 and Equilibrium Engineering brands. We offer a full range of energy and facility services from assessments and retrofit design, through project implementation, energy training, commissioning and ongoing maintenance.

We have the experience and resources to help you decarbonize and optimize any facility.
